SERVICE SUPPORT

BSA, Boko, Churchill, Foremost, Mostana & Winchester.

Delivering Excellence

BSA SERVICE TEAM

Under the control of Service Manager Ivor Smith, BSA operates a regional service team consisting of ten multi-skilled technicians.

Support from the outset.

Whether you purchase a new machine from us, or just require an efficient and cost effective repair to an existing machine, **BSA** offer the complete package.

All our **Service Technicians** are "*Time Served*" engineers, with a wealth of experience in machine tools, with all of them being multi-skilled.

So whether it is Mechanical, Electrical or Electronic we have the team to help in any situation.

Experience on *Fanuc, Anilam, and Siemens CNC controls* adds to our extensive capability.

We believe that a policy of continuous training to enhance existing skills and develop new ones is vital to maintain our competitive edge.

In addition to breakdown cover a full package of other services are available, which include *Maintenance & Preventative Maintenance Training courses.*

SERVICE CONTRACTS

Planned maintenance is a key to maintaining peak efficiency. Our ***Product Support Service Contract*** offers the flexibility with a comprehensive package of maintenance services that allow you to choose the options that suit your particular needs.

The central component is the ***2,000 Hours Service***. This is a preventative maintenance visit designed for machines working a 40-hour week and is available in multiples for machines working more intensively.

Other options include priority call out, CNC control and drive system warranties and service hours discount scheme.

You decide what you need. Then we will tailor a service schedule, which fits the particular needs of your company.
